GOLF OUTING

Doylestown Country Club

Monday, June 4, 2018

ABOUT THE PARK SYSTEM

The Doylestown Township Park System was created in 1971 with the acquisition of the 13 acre Sauerman Park. In the years that followed, additional park land was acquired including Turk Parks I, II and III, Bridgepoint Park, Neamand Park and the Ridings Tract. Central Park was opened to the public in 1995. To date, the township maintains over 700 acres of park land and facilities- providing both active and passive recreation to both local residents and the community at large.

Proceeds from the Golf Outing benefit ongoing improvements within the Township's Park System such as the Central Park Pavilions, Environmental Education Area, Game Grove, LifeTrail, Sensory Trail, band shell, trail system, and more.

Your participation can make a difference for generations to come. We value your support and sincerely hope that you will join us this year.

Parks & Recreation: A true health solution

Please help support parks & recreation and enhance the value added benefits in your community

Public park and recreation agencies create healthy communities and play a fundamental role in enhancing the physical environments in which we live. Through facilities, outdoor settings, and services provided, they support good health for people of all abilities, ages, socio-economic backgrounds, and ethnicities. They foster change through collaborative programs and policies that reach a vast population to:

- Help reduce obesity and incidence of chronic disease by providing opportunities to increase rigorous physical activity in a variety of forms;
- Provide a connection to nature which studies demonstrate relieves stress levels, tightens interpersonal relationships, and improves mental health; and
- Foster overall wellness and healthful habits, such as becoming tobacco-free and engaging in enrichment opportunities that add balance to life.
