at our Community
Recreation Center*

Spread the Word:

Feel free to invite friends or family who may benefit from this presentation. To help us plan, please register by clicking the above link and selecting the flyer that says "Explore the World".

What You'll Learn

This presentation will highlight two upcoming travel opportunities offered through Doylestown Township Parks and Recreation in partnership with Premier World Discovery. These informational sessions allow community members to learn about organized group travel and explore unique destinations.

One of the trips being presented is the **Wonders of the Blue Danube River Cruise**, scheduled for October 10, 2026. This trip offers travelers the opportunity to experience several historic cities and scenic landscapes along the Danube River while enjoying a guided European river cruise.

The second trip is the **Canadian Rockies and Glacier National Park Tour**, scheduled for July 22, 2026. This tour focuses on the natural beauty of the Canadian Rockies and includes visits to breathtaking mountain scenery and iconic destinations such as Glacier National Park.

During the presentation, attendees will learn more about the trip itineraries, accommodations, pricing, and travel details, and will have the opportunity to ask questions and gather additional information about these guided travel experiences.
